WELCOME TO DIGNITY FOUNDATION

Who We Are

Dignity Foundation is the charity branch that supports the daily operations at Dignity House, a private mental health rehabilitation centre in Bermuda, that endeavours to Restore, Improve, & Empower individuals age 18+ currently facing the harsh realities associated with mental illness & substance misuse.

Our Why

Dignity Foundation believes that socioeconomic status should not be a barrier to receiving support services, nor should a person's access to appropriate treatment be dependent upon their financial situation. The reason that Dignity Foundation exists is quite simple:

Everyone, no matter what race, gender identity, age, religion, sexual orientation, socioeconomic status, or ability, deserves to live a life worth living and to experience positive mental health.

THE CURRENT CHALLENGE

There are limited financial resources available to low-income individuals seeking to cover the cost of services at Dignity House.

Presently, the Bermuda Government Department of Financial Assistance contributes up to 50% of the monthly cost for residential rehabilitation services, resulting in a significant and often, unaffordable copay for individuals admitted to Dignity House, who come from low-income backgrounds.

Often times, facing both limited support networks and financial resources, this leaves several individuals at risk of not being able to access vital treatment services.
